The State of Illinois requires that backflow prevention assemblies be installed on all hazardous cross-connections in an effort to keep our water supply safe. These assemblies must be tested and certified every year to ensure that they are working properly. The City of Wood Dale has partnered with BSI Online to assist in administering the backflow program in your community. Our records show the following backflow assembly(s) at your property, which are due to be tested by **May 9, 2023. Testing Due Date**

You are responsible for hiring a licensed backflow tester to perform the annual test and certification of the backflow assembly(s) listed above (BSI does not test backflow assemblies).
