

Prevent Flooding **SANDBAGS AVAILABLE**

Sandbags are available 24/7 on the south side of 720 N Central Ave.

A staging point for bulk sandbag placement has been identified at the following locations when Salt Creek reaches an elevation of 675 feet above sea level:

- Carter Ct and Charmille Ln, southeast corner
- Across from 232 Forestview Ave (on the east side of the road)
- Potter Street – between Edgebrook Rd and Oakwood Dr
- 408 Grove Street (on the parkway)

Additional Sandbag Locations During Flash Flooding

- Dead end on South Cedar Ave
- South Cedar and Spring Oaks Dr
- Deerpath Road and S Central Ave
- George St and Prospect Ave
- Potter Street Pumping Station
- Prospect Ave and Sarah Dr

Disclaimer:

"The City will make every effort to make sandbags available to the residents during periods of notable elevations of Salt Creek. The distribution of the sandbags is dependent upon the staffing available to the City and other emergencies within the City. The City cannot control the outside factors, so unfortunately, it cannot guarantee the distribution of sandbags to all of the designated sites."
