Choosing a Long Term Care Facility

When choosing a long term care facility, schedule a tour, then ask the following questions:

1. Is the home licensed by the state, and when was the last licensing survey completed? Ask to see a copy of the most current report.
2. What services are covered by the monthly rate and what charges may be covered by Medicare, Medicaid, and/or private insurance?
3. Would there be a problem transferring from Private Pay to Medicaid in the future? Does the nursing facility have a limited number of beds that are Medicaid only?
4. How are residents' medical needs met? Does the nursing facility have an arrangement with a local hospital to handle emergencies? Do the residents look well groomed?
5. What are policies regarding access to medical records and discharge?
6. Are special diets accommodated? Can meals be sampled? Are guests accommodated?
7. Does the facility have pleasant and safe surroundings, i.e., call lights and grab bars in bathrooms and bedsides, automatic sprinkler system for fire, and clearly marked fire exits?
8. Is the home free of unpleasant odors? Are the grounds maintained?
9. Does the staff treat residents with kindness, courtesy and respect? Are provisions made for residents who speak a foreign language?
10. Are both individual and group activities scheduled? Is a copy of the monthly activity calendar visible?
11. What are the visiting hours? Are they convenient to prospective visitors?
12. Are residents given privacy and allowed to keep some personal belongings?
13. Make one or two unannounced visits. If possible, discuss with current residents how satisfied they are.

LONG TERM CARE FACILITIES

Placement in a Long Term Care Facility may be the only option available when the needs of an older adult can no longer be met by family, friends or community services. Decisions regarding placement should be made with care to ensure the best interests of the prospective resident.

Selecting an appropriate facility requires thorough research. Whenever possible, the prospective resident should be involved in the decision making process. Visit several facilities informally to identify those that have characteristics you consider important. Annual surveys of individual facilities can be viewed on the Illinois Department of Public Health Website at www.idph.state.il.us. For detailed information about the performance of every Medicare and Medicaid certified long term care facility, go to www.medicare.gov/NHCompare. Then schedule an appointment with the administrator or the director of admissions at the facilities being considered.

Following placement, family and friends should visit frequently and remain involved in the resident's care. If concerns and/or complaints arise, a referral can be made to the Illinois Department of Public Health (see page 102) and/or the Long Term Care Ombudsman Program. For *additional information, or assistance, call DuPage County Senior Services, (630) 407-6500 or 1-800-942-9412.*

CHOICES FOR CARE

All long term care facility applicants, regardless of payment method, must have a pre-admission screening completed before they can be admitted. (Public Act 89-0021). This is a comprehensive assessment by a professional case manager to determine the appropriateness of placement, discuss eligibility for Medicaid and provide information on alternative home and community-based services. The assessment measures a person's functional ability, as well as current support from family, friends and other sources. Screenings are completed in the hospital prior to discharge or in the home of a prospective client. **All long-term care facility applicants retain the right to choose long term care facility admission even if it is not recommended.**

To schedule a screening, call **DuPage County Senior Services, (630) 407-6500 or 1-800-942-9412.**

RETURNING TO COMMUNITY HOUSING

Pathways to Community Living

There are times when an individual remains in a long term care facility for several months or longer, until they are well enough to return to community living. During that stay, housing may have been lost as well as all the necessary items required caring for oneself at home. Pathways to Community Living is available to help these individuals successfully re-enter the community. A transition coordinator will meet with the individual, determine if this is a safe and appropriate plan and assist the individual in locating housing and securing furniture and other necessary items. To be eligible for this program the individual must have been in the facility for at least 90 days (excluding Medicare paid days), on Medicaid for at least one day and be age 60 or older. A referral for this program can be made by calling DuPage County Senior Services **(630) 407-6500** or online at **www.mfp.illinois.gov**.

LEVELS OF CARE

SKILLED CARE - Skilled Nursing Facilities provide 24-hour patient care including medical, nursing, dietary, pharmaceutical and rehabilitative services. This level of care comes closest to hospital care. Medicaid will pay for eligible residents in a certified facility. Medicare may pay for a limited stay for rehabilitation services, depending upon a patient's diagnosis and prognosis.

INTERMEDIATE CARE - Intermediate Care Facilities provide in-patient care for residents who need nursing supervision and supportive services, but who do not require continuous nursing care. Individuals with relatively stabilized long term illnesses or disabilities, including mental illnesses, are appropriate for this level of care. Medicaid pays for qualified recipients in an Intermediate Care Facility.

SHELTERED CARE - Sheltered Care Facilities provide a supervised setting for individuals who need a protective environment. Residents do not require nursing care, but need assistance with meals, dressing, walking and personal care. Periodic medical exams and other medical services are provided when needed. Medicare and Medicaid will not pay for this level of care.
