This car was purchased on 09/27/2007 for use by the Engineering Division of Public Works. When that department was eliminated the car was transferred to the Public Works Administration Department for use by the Director. When he received a new car, this car was transferred to the Community Development Department, where it still is today. The City paid \$20,038.00 for the car and has spent another \$9,661.96 and 211.0 man hours repairing this vehicle. It has a Vehicle Evaluation score of 19 out of a possible 60 points (32%).

The car currently has a dead battery that may need to be replaced, the low tire light is on, and the A/C is reported to be not working. The body is completely rusted through in front of the rear tires on both sides. The left rear fender also shows rust above the tire. The paint is peeling off of the hood, a small trim piece on the right side of the roof and the inside of the left front fender. The interior is in good shape except the carpet on the driver's side floor which should be black, is white with salt stains and deposits.

This car was purchased on 07/29/2011 for use by the City Manager. When he decided to begin using his own vehicle, the car was transferred to the Community Development Department. The City paid \$21,918.00 for the car and has spent \$5,195.02 and 138.0 man hours repairing it. It has a Vehicle Evaluation score of 28 out of a possible 60 points.

Other than the rear wiper arm being corroded and broken, there are no known issues at this time. The car just passed AIR Test on 08/04/20. The engine/drivetrain in this car seems to be very noisy. It sounds as if it might have timing chain issues, but we have never looked into this because the car was almost never used and still runs and drives fine. The body is beginning to show rust on both the right and left quarter panels and the inside of the bottom of the rear hatch. The rear bumper cover has numerous scratches. The interior is in good shape.

This truck was purchased by the City on 11/18/2010 for use by the Street Division. The City paid \$43,313.00 for the truck and has spent \$18,278.27 and 438.25 man hours repairing the truck. It has a Vehicle Evaluation score of 40 out of a possible 70 points.

We have replaced the EGR cooler 5 times on this truck in just 7 years and it is currently out of service because of the same thing. It also has two dead batteries and a broken injector return line fitting and will not run. The DPF has had issues several times and we have had to replace the EGT sensors. The diesel engine, while making lots of power and torque, is just not suited for the way we use the truck. There are four other pickups that were purchased in 2011 and 2012. The repair costs for them are: #201 - \$8,592.02, #299 - \$2,289.19, #454 - \$7,395.37, #504, \$6,335.26. This truck's repair costs are double the worst of those four. The body has some minor dents and dings, but appears to be rust free. The interior is in fair condition with the driver's seat having some tears in the seat cushion.
